## Management Responsibilities

Senior management have ultimate responsibility for cybersecurity risk management in essential and important entities. Failure by management to comply with NIS2 requirements could result in serious consequences, including liability, temporary bans and administrative fines as provided for in the implementing national legislation.

Management bodies of essential and important entities must:

**Approve the adequacy** of the cybersecurity risk management measures taken by the entity;

**Supervise the implementation** of the risk management measures;

**Follow training** in order to gain sufficient knowledge and skills to identify risks and assess cybersecurity risk management practices and their impact on the services provided by the entity

**Offer similar training to their employees** on a regular basis;

**Be accountable** for the non-compliance
